

TECHNICAL DATASHEET

Grade-AF-MB01PP-SP2D

Ddev Plastiks filler master batches are produced from ultra-fine dispersible calcium and virgin polypropylene resins. This special grade developed for cement & fibre quality. Additives like antioxidant, lubricant, processing aid and desiccant are added to improve long term thermal & mechanical properties and processability. The compounds are diluted with desired grades of polypropylene show good dispersability and excellent balance of properties in the ultimate product.

Ddev's Filler Master batches offers the following benefits.

- Improve stiffness.
- Antislip property, improve strength and improve product stability.
- Smooth and glossy surface finish.
- Cost reduction

Technical specification

properties	Test method	Unit	Typical value
Melt flow index @230 ^o c, 2.16 kg	ASTM-D-1238	G/10min	2.0-3.5
Specific gravity@25 ^o c	ASTM-D-792	-	1.99+/-0.05
Whiteness index	CIE GANZ 82	-	>55
Moisture content	ASTM C25	%	<0.05

Storage: The material shall be kept in a cool and dry place.

Main application: Cement bags / Fibres :Jumbo Sacks.

Binder resin:-Polypropylene Homopolymer .

Delivery:Pellets .

Doses:- 5-30 % add with pp raffia grades according to the application .

Package: 25 kg pp woven sacks.
